Spigraph broaden Software portfolio with Foxit solutions

BASINGSTOKE (UK) – Spigraph, one of the leading providers of document capture and processing solutions, is proud to announce a new partnership with Foxit for the European region. With offering the product PhantomPDF, Spigraph expands their portfolio to better support the Digital Transformation process.

Spigraph offers to their reseller channel Foxit PhantomPDF *Business*, *Standard* and *Mac* that enables quick and easy creation of professional looking PDF documents, secure sensitive information and much more. "We are consistently looking for new and innovative technologies to have the best portfolio that supports our partners and their customers in the digital transformation environment," says Peter de Boer, Spigraph's General Manager Northern Europe, DACH and Iberia. "By adding solutions from a leading provider like Foxit we are adding innovative PDF products and services to our portfolio."

"The global demand for intuitive PDF solutions is growing at an extraordinary rate. Foxit Software is at the forefront of PDF technology and has over 560 Million users worldwide," adds Paul Jackson, EMEA Channel Director at Foxit Software. "We are highly focused on helping all sizes of business from SMB through to enterprise, so a company like Spigraph, which is incredibly customer focused and proactive, complements everything that we are looking for in a partner."

The partnership will be effective immediately.

About Spigraph
Spigraph is one of the leading providers of document capture and processing solutions. In addition to its portfolio of document scanners from the world's leading manufacturers, Spigraph supports its customers in automating business processes and generating operational efficiencies through digital transformation. As a value-added-distributor, Spigraph offers a full range of services, from consulting and implementation services to scanner maintenance and support.

Headquartered in St Quentin-Fallavier (France) and with sales and service organizations across more than 12 countries in Europe, Spigraph serves more than 6,000 authorized partners and 40,000 customers in over 40 countries. www.spigraph.com

About Foxit Software

Foxit is a leading provider of innovative PDF products and services, helping knowledge workers to increase their productivity and do more with documents. Foxit addresses the needs of three distinct market segments. For End-User Productivity, Foxit delivers easy to use desktop software, mobile apps, and cloud services to make knowledge workers more productive. ConnectedPDF delivers leading edge technology that powers document management, security, and collaboration services for PDF files. Foxit's Developer Solutions enable developers to incorporate powerful PDF technology into their applications. For Enterprise Automation, Foxit provides server software for large scale PDF document management and data capture.

Foxit has over 560 million users and has sold to over 100,000 customers located in more than 200 countries. The company has offices all over the world, including locations in the US, Asia, Europe, and Australia. For more information, please visit https://www.foxitsoftware.com
